

Don't You Run So Fast

You say we've come full circle
This is the end of the road
I've broken your dreams of purple and pure gold

You say when this is over
Someday I will understand
We tried to build a house of love on the desert sand

chorus:

Baby, don't you run so fast
Maybe we can work this out
and make it last

Don't you jump to conclusions
Let's take a little step at a time
Don't let a false delusion fool your mind

We'll walk this road together
I'll be there by your side
When this world turns upside-down like a roller-coaster ride

repeat chorus

Try a little patience
You'll find it's not too late
All good things in love and life
comes to those who wait

repeat chorus

Baby, don't you run so fast
Maybe we can work this out
Baby, don't you run so fast
Baby, don't you run so fast
Don't you run so fast
Don't you run so fast
