

I Really Tried To Love You

You're standing in the driveway
Got your carkeys in your hand
I know that I could stop you
But I can't go through that again

I could put my arms around you
Beg you baby not to leave
But we'd be right back here tomorrow
I just hope that you can see

chorus:

I really tried to love you
More than I can say
Your heart is telling you to go
I can't stand in the way
Heaven knows my heart and soul
I've done all I can

I'm not gonna say, "I love you"
or let the tears begin to flow
Love is waiting out there somewhere
And it will find us, I know

I really tried to love you
More than I can say
Your heart is telling you to go
I can't stand in the way
Heaven knows my heart and soul

I really tried to love you
More than I can say
Your heart is telling you to go
I can't stand in the way
Heaven knows my heart and soul
Heaven knows my heart and soul
I've done all I can
