

I Wished Upon The Stars In Your Eyes

There's a moon in the sky tonight
I'm alone with frogs and fireflies
On the porch I'm swingin' slow
But I don't know why you had to say goodbye

There's a sweet summer scent in the air
Like the touch of your lips and flowing hair
Things like that I can't forget
I my dreams I still see you on the stairs

chorus:

When I wished upon the stars in your eyes
I believed every dream would come true
and my heart believed in you
When I wished upon the stars in your eyes

Maybe I am the one to blame
'Should have wished love to burn like a flame
of an ever lasting fire
Since you're gone life will never be the same

repeat chorus

When I wished upon the stars in your eyes
When I wished upon the stars in your eyes
