

## **So This Is Love**

I set aside your coffee cup  
Where I know your lips have touched  
So, this is love

At work I just can't get to it  
I'm lightheaded and I can prove it  
So, this is love

**I'm spinning round a ferris-wheel ride  
Flyin' up to touch the sky  
I get this crazy view  
when I think about you  
So, this is love**

I pass your house though I'm running behind  
It's out of my way but I'm out of my mind  
So, this is love

I play your message at least five times  
To hold me over till you pull in my drive  
So, this is love

### **repeat chorus**

You're playing in my head  
Like a melody  
From a Buddy Holly song  
Your rockin' me

(Maybe Baby, Well Alright, Oh Boy, I'm gonna' see you tonight)

So, this is love

### **repeat chorus**

**So, this is love,  
So, this is love,  
So, this is love**
