

What Real Love Can Do

Don't say a word
Your eyes say enough
The road you were on
turned rocky and rough
That man you loved left your heart behind

You've lost all faith
in a four letter word
Now L.O.V.E
always spells hurt
Darling, don't you spend the rest of your life, alone
Let me show what real love can do

chorus:

Love can walk a thousand miles
Hit rockbottom and touch the sky
There ain't nothing real love can't do
`cause love forgives and love forgets
When will your broken heart accept
Something good is waiting for you
Let me show what real love can do

We're you promised the moon
Did he make you believe
He'd stay here forever
never to leave
Did he paint you a picture of a picture perfect dream come true

When the rain comes down
I want you to know
I'll colour the heavens
with a rainbow of hope
Darling, grey days can turn brilliant blue, for you
Let me show what real love can do

repeat chorus twice

Let me show what real love can do
Let me show what real love can do
