

Lighten Up

Monday mornin' overslept
Didn't have my coffee yet
I had to tell myself "lighten up"

Backing out of my drive
Gotta' flat in my left front tire
I had to count to ten to lighten up

chorus:

Always look at life from the bright side
That's what the doctors say
Don't worry 'bout things you can't change
You'll live a little longer that way

Lighten up, makes you feel better
Stay cool, don't loose your temper
Lighten up, come to your senses
Put a big smile on your face
and lighten up

Got to work an hour late
My appointments had to wait
So I told my boss to "lighten up"

He turned red, lost his head
Fired me, then he said
"Why don't you do the same, lighten up"

repeat chorus

Lighten up, makes you feel better
Stay cool, don't loose your temper
Lighten up, come to your senses
Put a big smile on your face
and lighten up
