

## Love Core Meltdown

"Three mile island Harrisburg fire"  
I never really understood  
'til nuclear distraction turned heat into action  
and "China Syndrom" hit Hollywood

When mean radiation and disintegration  
could scare you to death I was bored  
Then I saw you glowing, dancing tip-toeing  
burning down the hardwood floor

chorus:

I've got a love core meltdown  
a raging fire out of control  
A love core meltdown in my heart  
Baby, you're a love core meltdown

People admire electrical wires  
and Thomas Edison bulbs  
But man-made power, paid by the hour  
ain't nothin' to a heart in love

Stars in your blue eyes are tellin' the sparks fly  
I've never seen a flame like this  
My trembling reaction and your thrilling attraction  
gets hotter by every kiss

.I've got a love core meltdown  
a raging fire out of control  
A love core meltdown in my heart/.

Love is a heatwave, it makes the earth move  
Bright and brilliant like Oppenheimer's tool

.I've got a love core meltdown  
a raging fire out of control  
A love core meltdown in my heart/.  
Baby, you're a love core meltdown

You're a love core meltdown, love core meltdown,  
love core meltdown in my heart
