

## My Heart Can Do Better

I hear from old friends, you're checkin' on me  
Just like my mothers curiosity  
You cry like a baby for all things you miss  
My heart can do better than this

Back then I loved you, ' think I told you so  
What did you care, you had to go  
Forget starting over, as a matter of fact  
My heart can do better than that

My heart can do better just give me some time  
To find true love waiting down the line  
'was only a wise-guy, a clown and a fake  
who made a painful mistake  
My heart can do better than break

In Washington DC, the administration  
found the solution to the crime situation  
"Three strikes and your out" says the president's act  
My heart can do better than that

Well, I'm a little backwards like an old fashioned man  
When I say "I do" I do the best I can  
No chance for second chances, "please, read my lips"  
My heart can do better than this

repeat chorus twice

My heart can do better than break  
My heart can do better, you're love is too late  
My heart can do better than break
